Speed Safety Cameras for #EverySchool

Speed safety cameras work. There is 60% less speeding in locations where cameras have been installed. Yet, state law currently restricts cameras to operate at just 140 school zones during limited hours in New York City, leaving over 93% of our city's schoolchildren at increased risk. I support bringing speed safety cameras to every school in New York City.

Date

Unsafe Speeds at 2000+ Schools
